

SIMPLE GREEN CLEAN BUILDING® Bathroom Cleaner Concentrate

Technical Data Sheet
January 2014

Product Description: cleans hard bathroom surfaces: ceramic, glazed tile Corian®, Formica®, grout, faucets and fixtures, porcelain and cured fiberglass.

- Pink Color
- 1 to 20 dilution
- Formulated without VOCs
- No added Fragrance
- Cold Water compatible

This product meets Green Seal™ Standard GS-37 based on effective performance, concentration of product, minimized/recycled packaging, and protective limits on VOCs and human & environmental toxicity. GreenSeal.org.

Wear appropriate protective gear when handling concentrate (rubber gloves, eye protection). For easiest use, the Simple Green Clean Building Proportioner minimizes contact with concentrate and assures the most effective and economical dilutions. • Use in an area with good ventilation. Open doors and/or windows in small areas. Appropriately diluted final use solutions do not require any protective gear.

Directions:

1. Dilution with cold tap water is recommended.
2. Mix at 1-part-concentrate to 20 parts water (1 ounces concentrate to 20 ounces of water).
3. Fill spray bottles or buckets and spray or wet the area to be cleaned. Work in manageable sections if cleaning a large area.
4. Wait several minutes to allow cleaner to work. Scrub or agitate if necessary.
5. Mop or wipe cleaned surface with damp mop or cloth and allow surfaces to dry before resuming use or traffic.

Properties:

Specific Gravity...	1.008 – 1.012	Boiling Point.....	~101°C (~213.8°F)
pH.....	1.00 – 1.25	Freezing Point....	~0°C (~32°F)
Flash Point.....	Non-flammable		
VOCs.....	CARB Method 310 - 0 g/L 0 lb/gal 0%		<i>formulated without VOCs</i>

Eye Contact: Causes serious eye irritation

Ingestion: May cause upset stomach.

Skin Contact: Causes skin irritation

Inhalation: Not expected to cause respiratory irritation.

Shelf Life: In unopened containers, under normal storage conditions, Simple Green Clean Building All-Purpose Cleaner is expected to last two years or longer. Opened containers cannot be guaranteed due to uncontrollable variables.

Date / Batch / Lot Coding: All containers are stamped or stickered in the following way: YYJJBBB – where YY are the last two digits for the year of production (eg. 14 is for 2014), JJJ is the Julian date for the year it was produced (eg. 001 is for January 1st) and BBBB is the batch produced for that year (eg. 0004 is the fourth batch of the year).

Storage & Disposal: Store locked up. Do not store around food, feed, or drinking water. Store at temperatures above freezing and below 95°F. Repeated freezing or extended over-heating in storage or transport may degrade cleaning efficacy. Dispose of unused contents in accordance with local, regional, and national regulations. Rinse container with water and offer for recycling.

PART NUMBERS:

1200000111101 - 1 gallon container 11101 & 1210000211101 - 1 gallon container, 2 per case
