

Product Description: ready-to-use cleaner removes fingerprints, steaks and oily soils from appliances, sinks, grills, faucets, fixtures, counters, backsplashes and more, leaving a protective layer to resist further water and finger marks.

- Streak Free
- Smear Free
- Phosphate Free
- No rinsing required
- No VOCs
- Silicone polymer protectant
- NSF rated as A7 Cleaning Compound
- Odor free
- Color free

Pre-cleaning: Cover or remove food from area. If used on stovetops or oven fronts, they must be turned off and cool.

Best Results: Remove prior metal cleaning products or protective film adhesives by washing the surface with a detergent or dishwashing liquid. Damp wipe, rinse well, and dry.

Instructions:

1. Turn nozzle to spray.
2. Apply by spraying onto a clean, lint-free cloth, microfiber, or paper towel.
3. Wipe along the grain of the metal surface.
4. Buff to a luster with a clean, dry cloth, microfiber or towel.

Properties: White opaque liquid with no added odor.

Specific Gravity...	0.990 – 1.010	Boiling Point.....	101°C (213.8°F)
pH.....	4.5 – 7.5	Freezing Point....	0 - 3.33°C (32 - 38°F)
Flash Point.....	Non flammable		
VOCs.....	CARB Method 310 - 0.0 g/L		0.0 lb/gal 0.0%

- Eye Contact:** May irritate eyes.
Skin Contact: Not expected to cause skin irritation.
Ingestion: May cause upset stomach.
Inhalation: Not expected to cause respiratory irritation.

<p>NFPA Rating Health = 1 (minimal) Fire, Reactivity, Special / PPE = 0 / none</p>

Shelf Life: In unopened containers, under normal storage conditions, Simple Green is expected to last five years or longer. Opened containers cannot be guaranteed due to uncontrollable variables. Uncontaminated opened containers under normal storage conditions may last five years or longer.

Storage: Store in a cool dry place. Do not store in direct sunlight. Four hours above 109°F (42.7°C) will result in formula separation and will require agitation to reconstitute formula and efficacy. Longer exposure will cause ingredient degradation and loss of efficacy. Do not allow to freeze. Frozen product can go through one freeze thaw cycle without loss of efficacy. Prolonged storage at or near freezing, 23-40°F (0-4°C), will result in ingredient degradation and loss of efficacy.
